Plexus dependencies

How does Maven depend on Plexus components?

plexus consists of a myriad of components

component	site	repo	version range@scm	comments	contributors(*)
`plexus-utils`	site	repo	2.0.5-@svn 2.0.7+@github	extensively used in core, every plugin, Modello and generated code, ... Initial Proposal : Plexus-utils replacementPlexus-utils replacement Final Proposal : maven-shared-util	35 contributors
`plexus-classworlds`	site	repo	2.2.3-@svn 2.4+@github	used in Maven core.	23 contributors
`plexus-containers`	**site**		**1.5.5**		
`plexus-container-default`	site	repo		replaced in Maven 3 by guice + sisu + sisu-inject-plexus	
`plexus-component-metadata`	site	repo		plugin used in Maven 3 and every Plexus component like maven-shared: **any replacement from sisu available? any migration to do?**	useful?
`plexus-component-annotations`	site	repo		dependency used in Maven 3 and every Plexus component like maven-shared: **any replacement from sisu available? any migration to do?**	useful?
`plexus-component-javadoc`	site	repo		used in maven-parent pom for reference, but since components migrate from Plexus javadoc tags to plexus-component-annotations, we should probably not really need this javadoc doclet any more	
`plexus-components`	**site**		**1.1.18-@svn** **1.1.19+@github**		
`plexus-archiver`	site	repo	1.2-@svn ?@github	used in a lot of core plugins (assembly, dependency, ear, jar, javadoc, site, war, ...)	23 contributors
`plexus-cli`	site	repo	1.5-@svn ?@github	used in maven-indexer	7 contributors
`plexus-compiler`	site	repo	1.8.1@svn ?@github	used in maven-compiler-plugin	28 contributors
`plexus-component-factories`	site	repo	?@svn ?@github		
`plexus-digest`	site	repo	1.1-@svn ?@github		9 contributors
`plexus-i18n`	site	repo	1.0-beta-10-@svn ?@github	used in doxia-site-renderer and some plugins: changes, doap, invoker, linkcheck, pdf, project-info-reports, site	15 contributors
`plexus-interactivity`	site	repo	1.0-alpha-6-@svn ?@github	used in wagon-ssh (then Maven core), and in plugins: archetype, release, compiler, eclipse, help, repository	11 contributors
`plexus-interpolation`	site	repo	1.14@svn ?@github	used in Maven core (model and settings builders) and many plugins: assembly, change, checkstyle, dependency, invoker, resources, war...	12 contributors
`plexus-io`	site	repo	1.0.1@svn ?@github	used in plugins: assembly, dependency, war	17 contributors
`plexus-resources`	site	repo	1.0-alpha-7-@svn ?@github	used in plugins: checkstyle, eclipse, pmd, remote-resources	9 contributors
`plexus-swizzle`	site		1.0-alpha-1-SNAPSHOT ?@github		
`plexus-velocity`	site	repo	1.1.8-@svn ?@github	used in doxia-site-renderer, and plugins: changes, checkstyle, site	15 contributors

(*) contributors are counted by gitstats: some contributors are counted twice since they have different ids

org.sonatype.plexus components

- plexus-cipher
- plexus-sec-dispatcher

Other external Codehaus dependencies

- Modello: site, github, 35 contributors
