

Mailing Lists

Apache Geronimo Mailing Lists

There are currently three publicly available mailing lists for Geronimo:

User Mailing List

The user mailing list is for users of Geronimo to share their experiences and ask questions. Many of the developers monitor that list as well, to make sure questions don't go unanswered.

- [Subscribe](#) to user@geronimo.apache.org
- [Unsubscribe](#) from user@geronimo.apache.org
- [Post a message](#) on user@geronimo.apache.org

Archives:

- [Apache mod_mbox](#)
- [mail-archive](#)
- [MARC](#)
- [GMANE](#)
- [Nabble](#)

Developer Mailing List

The developer mailing list is used by the developers to discuss plans, make decisions, vote on technical issues, etc. It also gets change notices whenever issues are added to or updated in JIRA. This list has a higher volume, though some conversations take place on IRC as well.

- [Subscribe](#) to dev@geronimo.apache.org
- [Unsubscribe](#) from dev@geronimo.apache.org
- [Post a message](#) on dev@geronimo.apache.org

Archives:

- [Apache mod_mbox](#)
- [mail-archive](#)
- [MARC](#)
- [GMANE](#)
- [Nabble](#)

Source Control Mailing List

This list receives notifications (with diffs) every time a change is committed to the Geronimo source tree. It also receives change notices for changes to the Geronimo Wiki.

- [Subscribe](#) to scm@geronimo.apache.org
- [Unsubscribe](#) from scm@geronimo.apache.org

Archives:

- [Apache mod_mbox](#)
- [GMANE](#)

Other Mailing Lists

The Geronimo PMC has additional mailing list to resolve any administrative issues, personal issues, and security issues. Subscriptions to these lists are limited to Geronimo PMC members (and ASF Members):

- private@geronimo.apache.org

If you have a security issue to report, please use our security mailing list:

- security@geronimo.apache.org

You can also

- [Subscribe](#) to security@geronimo.apache.org
- [Unsubscribe](#) from security@geronimo.apache.org

We also have a TCK mailing list to discuss compliance issues. This list is limited to committers who have signed an NDA to work on the TCK compliance effort.
