

# Connecting to the Management API with JCA

TODO: Instructions on connecting to the BPEL Service Provider.

```
import com.fs.pxe.bpel.pmapl.*;
import com.fs.pxe.ra.*;
.
.
.

PxeManagedConnectionFactory pmcf = new PxeManagedConnectionFactory();
pmcf.setURL("rmi://localhost:2099/MyDomain");
PxeConnectionFactory cf =
    (PxeConnectionFactory)pmcf.createConnectionFactory();

PxeConnection conn = (PxeConnection)cf.getConnection();
InstanceManagement im =
    (InstanceManagement)conn.createServiceProviderSession(
        "uri:bpelProvider", InstanceManagement.class);
```
