

Index

Welcome to the Apache Geronimo wiki. This site contains the project documentation for all the available releases of Apache Geronimo. It is organized in several categories grouped by content. Here you will find user's guide, sample applications, geronimo specific development documents, presentations, FAQ's as well as project management related documents.

This wiki is developed and maintained by the Apache Geronimo community, your contributions are greatly appreciated. Contributions to this wiki are managed the same way as code contributions, that means all content on this site (see [Geronimo cwiki documentation architecture](#) for a list of conforming spaces) is Apache Software Foundation copyrighted and available under the [Apache License](#).
