

Status Report June 2017

June Board Report (SUBMITTED 2017-06-06) Apache Sling is an OSGI-based scriptable web framework that uses a Java Content Repository, such as Apache Jackrabbit, to store and manage content.

There are no issues which require board attention at the moment.

Good activity level overall, contributions from different people continue. Major release Sling 9 is just around the corner.

No new committer (last committers change was in September 2016 with one new committer elected), no new PMC member (last PMC change was in October 2016 with one new PMC members elected).
