

# ATS 9

Leif Hedstrom & Bryan Call

# What's New

HTTP/3 (QUIC) draft-20 support

LuaJIT removed in core, switched to YAML for some configuration

Minimum OpenSSL version is now 1.0.2

# GitHub Process

Create PR against master

Mark PR for Project 9.0.x and Milestone 10.0.0

Release Manager (RM) will cherry pick to 9.0.x branch

Create separate PR for 8.0.x and/or 7.1.x

# Open Issues

<https://github.com/apache/trafficserver/issues/5932>

#5933 - Crash in DNS

#4921 - Assertion in HttpSM (regression)

#5807 - ASAN heap-use-after-free in HttpVCTable::remove\_entry

#5943 - ATS 9 NetHandler lock abort

#5944 - ATS 9 using a continuation which is deleted
