

# Site Index

---

This page is an index to the concepts described on the Atlas Wiki and various topics about them.

---

## A

[Adapter Integration Pattern \(definition\)](#)  
[Adapter Toolkit Package \(definition\)](#)  
[Asset \(model\)](#)  
[Asset Owner OMAS \(definition\)](#)  
[APIs \(OMAS, OMRS, Atlas V2, OCF, ODF, GAF\)](#)  
[Audit Log \(GAF, OMRS\)](#)

## B

## C

[Caller Integration Pattern \(definition\)](#)  
[Catalog OMAS \(definition\)](#)  
[Client Package \(definition\)](#)  
[Community OMAS \(definition\)](#)  
[Connected Asset OMAS \(definition\)](#)  
[Connector \(definition, api, framework, toolkit package\)](#)  
[Connector Directory \(definition, model, api\)](#)  
[Connector Directory OMAS \(definition\)](#)  
[Connector Toolkit Package \(definition\)](#)

## D

[Data Platform OMAS \(definition\)](#)  
[Data Science OMAS \(definition\)](#)  
[DataSet \(model\)](#)  
[Developer OMAS \(definition\)](#)  
[DevOps OMAS \(definition\)](#)  
[Discovery OMAS \(description\)](#)  
[Discovery Toolkit Package \(description\)](#)

## E

[Events \(OMRS formats\)](#)  
[Event Management \(OMRS\)](#)

## J

## K

## L

[Lineage \(definition\)](#)

## M

[Metadata Discovery \(project\)](#)  
[Metadata Highway \(package\)](#)

## N

[Native Integration Pattern \(definition\)](#)

## S

[Stewardship OMAS \(definition\)](#)  
[Stewardship Toolkit Package \(definition\)](#)

## T

[Toolkits \(connector, discovery services, stewardship automation\)](#)  
[Types \(open metadata, typedefs\)](#)

## U

[UI - see \*User Interfaces\*](#)  
[User Interfaces \(business users\)](#)

## V

[VDC - see \*Virtual Data Connector\*](#)  
[Virtual Data Connector \(project\)](#)  
[Virtualizer \(component, gaian\)](#)

## W

Event Listener (OMRS, OMAS)

Event Publisher (OMRS, OMAS)

Event Mapper (definition)

## F

Frameworks (OCF, ODF, GAF)

## O

OCF - see *Open Connector Framework*

ODF - see *Open Discovery Framework*

OMAS - see *Open Metadata Access Services*

OMRS - see *Open Metadata Repository Services*

Open Connector Framework (context, definition, package)

Open Discovery Framework (context, definition, package)

Open Metadata Access Services (context, definition, examples, standards, asset owner, catalog, community, connected asset, connector directory, data platform, data science, developer, devops, discovery, glossary, governance definitions, governance engine, information architecture, information landscape, information process, information protection, information view, project management, reference data and mapping, stewardship)

Open Metadata and Governance (project, components, packages, types, integration patterns, model)

Open Metadata Repository Services (context, definition, audit log, cluster registry, connectors, event formats, event listener, event publisher, event management, event topic, linked metadata, repository proxy, REST API)

## X

## G

GAF - see *Governance Action Framework*

Gaian (definition)

Glossary (model, api)

Glossary OMAS (definition)

Governance Action Framework (context, package)

Governance Definitions OMAS (definition)

Governance Engine OMAS (definition)

Graph (strategy)

## H

## I

Infrastructure (model)

## P

Packages (list, client, metadata highway, repository stack, repository proxy, adapter toolkit, discovery toolkit, stewardship toolkit, connector toolkit, full platform)

Plug-in Integration Pattern (definition)

Process (model)

Project Management OMAS (definition)

## Y

## Q

## R

Reference Data and Mapping OMAS (definition)

## Z

## Numeric

Information Architecture OMAS ([definition](#))

Referenceable ([model](#))

Information Landscape OMAS ([definition](#))

Repository Proxy ([component](#), [package](#))

Information Process OMAS ([definition](#))

Repository Stack ([Atlas](#), [package](#))

Information Protection OMAS ([definition](#))

Information View OMAS ([definition](#))

Integration Patterns ([list](#), [Caller](#), [Native](#), [Adapter](#), [Plug-in](#))
