

# Assigned issues to former Oracle employee

There are many issues that are already assigned to a former Oracle employee. Since many of this people are no longer full time for OOO at work, we have to review this issues. This site will help in this review.

## Issues Assigned to sba

Bug Link	Priority	Comment
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=43620">https://issues.apache.org/ooo/show_bug.cgi?id=43620</a>	P3	Seems to be solved in same parts, but not in all
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=49214">https://issues.apache.org/ooo/show_bug.cgi?id=49214</a>	P3	In same parts it seems to be solved. I asked for feedback in my issue comment
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=53590">https://issues.apache.org/ooo/show_bug.cgi?id=53590</a>	P4	Bug seems still to be there, but it's a P4, so not so height priority
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=54864">https://issues.apache.org/ooo/show_bug.cgi?id=54864</a>	P3	Bug was not really assigned, no one was working on it as I see
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=56348">https://issues.apache.org/ooo/show_bug.cgi?id=56348</a>	P3	Issue is maybe solved. Target is still to 3.2
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=58281">https://issues.apache.org/ooo/show_bug.cgi?id=58281</a>	P3	Issue is probably solved. Need a to be checked again.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=63658">https://issues.apache.org/ooo/show_bug.cgi?id=63658</a>	P3	Need more QA work, probably something for RedFlag 2000
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=63696">https://issues.apache.org/ooo/show_bug.cgi?id=63696</a>	P4	Need same additional QA work.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=64444">https://issues.apache.org/ooo/show_bug.cgi?id=64444</a>	P3	It was not really tested
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=64446">https://issues.apache.org/ooo/show_bug.cgi?id=64446</a>	P3	The issue is confirmed by cloph, but no one working on it at the moment. It's a CJK issue, so maybe something for RedFlag 2000
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=64447">https://issues.apache.org/ooo/show_bug.cgi?id=64447</a>	P3	Last report is from 3.0. The issue is maybe still there. It's a CJK issue
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=65501">https://issues.apache.org/ooo/show_bug.cgi?id=65501</a>	P3	The bug seems to be reproducibly, but sba seems not has the time to investigate in it.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=65673">https://issues.apache.org/ooo/show_bug.cgi?id=65673</a>	P3	A Translate issue, the bug was closed, but someone reopen it. A pt-BR NL speaker should test it and comment this issue.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=66798">https://issues.apache.org/ooo/show_bug.cgi?id=66798</a>	P4	The really important comment comes from mba on 2010-05. He describe the enhancement. mba put this issue to the internship program, so this is maybe also a task for a student. This issue is ready for development.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=66980">https://issues.apache.org/ooo/show_bug.cgi?id=66980</a>	P3	This Issue is a reopened issue. With same users make a load of noise.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=69074">https://issues.apache.org/ooo/show_bug.cgi?id=69074</a>	P5	A too short dialog, it seems to be a very easy task
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=70137">https://issues.apache.org/ooo/show_bug.cgi?id=70137</a>	P3	No one is really able to confirm this issue, so maybe this one is to close.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=71034">https://issues.apache.org/ooo/show_bug.cgi?id=71034</a>	P3	Issue is not confirmed. Need a Linux specialist to confirm it
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=71656">https://issues.apache.org/ooo/show_bug.cgi?id=71656</a>	P3	Issue is not confirmed yet. It seems, that no one has investigate time in this issue. so it's probably a easy one to confirm.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=71872">https://issues.apache.org/ooo/show_bug.cgi?id=71872</a>	P3	Issue is not confirmed. Special Hardware needed. Computer with dual screen with different screen resolution.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=82132">https://issues.apache.org/ooo/show_bug.cgi?id=82132</a>	P3	A interesting feature, but no one working on it atm.

<a href="https://issues.apache.org/ooo/show_bug.cgi?id=82404">https://issues.apache.org/ooo/show_bug.cgi?id=82404</a>	P3	The status is set to new, but I can't see any confirmation. However, maybe there exist also a duplicate
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=82448">https://issues.apache.org/ooo/show_bug.cgi?id=82448</a>	P3	Is still confirmed, but need additional QA that it can be fixed.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=75445">https://issues.apache.org/ooo/show_bug.cgi?id=75445</a>	P3	Issue is still unconfirmed. Special hardware requested. Dual monitor with different resolutions.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=78493">https://issues.apache.org/ooo/show_bug.cgi?id=78493</a>	P3	This issue is still unconfirmed. It seems that no one has investigate a load of time. As I see, it looks like a enhancement. Priority not too height.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=79690">https://issues.apache.org/ooo/show_bug.cgi?id=79690</a>	P3	This bug is maybe to close, I will take over it
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=79851">https://issues.apache.org/ooo/show_bug.cgi?id=79851</a>	P3	This bug hang around since 2.2.x and it's still unconfirmed. But I have also to notice, that no one investigate time in this issue.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=80611">https://issues.apache.org/ooo/show_bug.cgi?id=80611</a>	P3	This issue is maybe not solved, but also not confirmed. Anyway, It need some database specialist from Korea.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=80889">https://issues.apache.org/ooo/show_bug.cgi?id=80889</a>	P3	A issue about Chinese spell checker. Confirmed by RedFlag 2000 bot no one working on this issue at the moment
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=80897">https://issues.apache.org/ooo/show_bug.cgi?id=80897</a>	P4	This issue is about AutoText and it's confirmed. Well maybe more a translation issue as a coding issue. If it's like that, then it would be easy to fix.
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=81167">https://issues.apache.org/ooo/show_bug.cgi?id=81167</a>	P5	A enhancement about the smart tags. It seems like a easy task
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=81274">https://issues.apache.org/ooo/show_bug.cgi?id=81274</a>	P3	This bug is still unconfirmed. It's maybe needed to have a Telugu native language speaker to confirm this bug
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=81343">https://issues.apache.org/ooo/show_bug.cgi?id=81343</a>	P3	This issue is confirmed in a 2.3.x but maybe it's already solved or a duplicate
<a href="https://issues.apache.org/ooo/show_bug.cgi?id=82060">https://issues.apache.org/ooo/show_bug.cgi?id=82060</a> {P3	A Vietnamese Issue. Maybe the issue is already reported. This issue is still unconfirmed
