

Tapestry 5 in Action available through MEAP

I'm pleased to announce that the long awaited [Tapestry 5 in Action book](#) is available through MEAP now. Order the book [here](#) and start reading today.

Tapestry 5 in Action is a comprehensive guide that introduces Apache Tapestry and its approach to building modern web applications. The book walks you through Tapestry 5, from a simple Hello World application to rich Ajax-enabled applications. Written by a core committer, it provides deep insight into the architecture of Tapestry 5.
