

Assigned issues to former Oracle employee

There are many issues that are already assigned to a former Oracle employee. Since many of this people are no longer full time for OOo at work, we have to review this issues. This site will help in this review.

Issues Assigned to sba

Bug Link	Priority	Comment
https://issues.apache.org/ooo/show_bug.cgi?id=43620	P3	Seems to be solved in same parts, but not in all
https://issues.apache.org/ooo/show_bug.cgi?id=49214	P3	In same parts it seems to be solved. I asked for feedback in my issue comment
https://issues.apache.org/ooo/show_bug.cgi?id=53590	P4	Bug seems still to be there, but it's a P4, so not so height priority
https://issues.apache.org/ooo/show_bug.cgi?id=54864	P3	Bug was not really assigned, no one was working on it as I see
https://issues.apache.org/ooo/show_bug.cgi?id=56348	P3	Issue is maybe solved. Target is still to 3.2
https://issues.apache.org/ooo/show_bug.cgi?id=58281	P3	Issue is probably solved. Need a to be checked again.
https://issues.apache.org/ooo/show_bug.cgi?id=63658	P3	Need more QA work, probably something for RedFlag 2000
https://issues.apache.org/ooo/show_bug.cgi?id=63696	P4	Need same additional QA work.
https://issues.apache.org/ooo/show_bug.cgi?id=64444	P3	It was not really tested
https://issues.apache.org/ooo/show_bug.cgi?id=64446	P3	The issue is confirmed by cloph, but no one working on it at the moment. It's a CJK issue, so maybe something for RedFlag 2000
https://issues.apache.org/ooo/show_bug.cgi?id=64447	P3	Last report is from 3.0. The issue is maybe still there. It's a CJK issue
https://issues.apache.org/ooo/show_bug.cgi?id=65501	P3	The bug seems to be reproducibly, but sba seems not has the time to investigate in it.
https://issues.apache.org/ooo/show_bug.cgi?id=65673	P3	A Translate issue, the bug was closed, but someone reopen it. A pt-BR NL speaker should test it and comment this issue.
https://issues.apache.org/ooo/show_bug.cgi?id=66798	P4	The really important comment comes from mba on 2010-05. He describe the enhancement. mba put this issue to the internship program, so this is maybe also a task for a student. This issue is ready for development.
https://issues.apache.org/ooo/show_bug.cgi?id=66980	P3	This Issue is a reopened issue. With same users make a load of noise.
https://issues.apache.org/ooo/show_bug.cgi?id=69074	P5	A too short dialog, it seems to be a very easy task
https://issues.apache.org/ooo/show_bug.cgi?id=70137	P3	No one is really able to confirm this issue, so maybe this one is to close.
https://issues.apache.org/ooo/show_bug.cgi?id=71034	P3	Issue is not confirmed. Need a Linux specialist to confirm it
https://issues.apache.org/ooo/show_bug.cgi?id=71656	P3	Issue is not confirmed yet. It seems, that no one has investigate time in this issue. so it's probably a easy one to confirm.

https://issues.apache.org/ooo/show_bug.cgi?id=71872	P3	Issue is not confirmed. Special Hardware needed. Computer with dual screen with different screen resolution.
https://issues.apache.org/ooo/show_bug.cgi?id=82132	P3	A interesting feature, but no one working on it atm.
https://issues.apache.org/ooo/show_bug.cgi?id=82404	P3	The status is set to new, but I can't see any confirmation. However, maybe there exist also a duplicate
https://issues.apache.org/ooo/show_bug.cgi?id=82448	P3	Is still confirmed, but need additional QA that it can be fixed.
https://issues.apache.org/ooo/show_bug.cgi?id=75445	P3	Issue is still unconfirmed. Special hardware requested. Dual monitor with different resolutions.
https://issues.apache.org/ooo/show_bug.cgi?id=78493	P3	This issue is still unconfirmed. It seems that no one has investigate a load of time. As I see, it looks like a enhancement. Priority not too height.
https://issues.apache.org/ooo/show_bug.cgi?id=79690	P3	This bug is maybe to close, I will take over it
https://issues.apache.org/ooo/show_bug.cgi?id=79851	P3	This bug hang around since 2.2.x and it's still unconfirmed. But I have also to notice, that no one investigate time in this issue.
https://issues.apache.org/ooo/show_bug.cgi?id=80611	P3	This issue is maybe not solved, but also not confirmed. Anyway, It need some database specialist from Korea.
https://issues.apache.org/ooo/show_bug.cgi?id=80889	P3	A issue about Chinese spell checker. Confirmed by RedFlag 2000 bot no one working on this issue at the moment
https://issues.apache.org/ooo/show_bug.cgi?id=80897	P4	This issue is about AutoText and it's confirmed. Well maybe more a translation issue as a coding issue. If it's like that, then it would be easy to fix.
https://issues.apache.org/ooo/show_bug.cgi?id=81167	P5	A enhancement about the smart tags. It seems like a easy task
https://issues.apache.org/ooo/show_bug.cgi?id=81274	P3	This bug is still unconfirmed. It's maybe needed to have a Telugu native language speaker to confirm this bug
https://issues.apache.org/ooo/show_bug.cgi?id=81343	P3	This issue is confirmed in a 2.3.x but maybe it's already solved or a duplicate
https://issues.apache.org/ooo/show_bug.cgi?id=82060 {P3	A Vietnamese Issue. Maybe the issue is already reported. This issue is still unconfirmed
