## How to Contribute to Ambari Wiki

Ambari Wiki is community-driven and made possible by contributions from Ambari users and developers alike.

To prevent spam and malicious edits by bots, you cannot edit Ambari Wiki until you are granted edit privileges.

If you would like to contribute, please do not hesitate to send an email to [dev@ambari.apache.org](mailto:dev@ambari.apache.org) with your Confluence ID and ask for Ambari Wiki editing privileges. Once your account is added the "Edit" role, you will be able to edit existing Wikis as well as create new ones.
