

Roles

Overview

There are several roles within the Airflow Open-Source community.

PMC Member (a.k.a. Project Management Committee Member)

The PMC is a group of maintainers that drives changes in the way Airflow is managed as a project. As we consider Apache, the role of the PMC is primarily to ensure that Airflow conforms to Apache processes and guidelines.

Committers/Maintainers

Committers are responsible for:

- Championing one or more items on the [Roadmap](#)
 - Reviewing & Merging Pull-Requests
 - Scanning and responding to JIRAs
 - Responding to questions on the dev mailing list (dev@airflow.incubator.apache.org)
-

Contributors

- Fixing bugs
- Adding features
- Championing one or more items on the [Roadmap](#)
