

Status Report (December 2009)

Submitted to board@ on December, 11th 2009

Sling is an OSGI-based scriptable web framework that uses a Java Content Repository, such as Apache Jackrabbit, to store and manage content.

Sling graduated as a TLP on June 17th, 2009.

There are no issues which require board attention at the moment.

Community

- New committer: Justin Edelson.
- Felix Meschberger presented Sling as part of the Content Track at ApacheCon US.
