

# OpenOffice Domains

After checking a few random entries here, all these domains seem to exist on one physical server.

## Categories

On <http://projects.openoffice.org/> project categories are defined. Let's use these unless another organization makes sense. We'll map these to short names.

1. Product Development - Core
2. Extension Development - Extension
3. Language Support - Language
4. Helping Users - Users
5. Distribution - Infra
6. Promotion - Community

We should note which projects have downloadable webcontent and which redirect to the [openoffice wiki](#).

## Accepted Projects

| OOo Project Name      | Project Website Name  | Category  | Hosted at | Notes  |
|-----------------------|---|-----------|-----------|--|
| About                 | <a href="http://about.openoffice.org/">http://about.openoffice.org/</a>                   | Community | Kenai     | About, history, trademarks, testimonials, ...  |
| API                   | <a href="http://api.openoffice.org/">http://api.openoffice.org/</a>                       | Core      | Kenai     | APIs, UNO, SDK, ...  |
| Application Framework | <a href="http://framework.openoffice.org/">http://framework.openoffice.org/</a>           | Core      | Kenai     | Core modules.  |
| Bibliographic         | <a href="http://bibliographic.openoffice.org/">http://bibliographic.openoffice.org/</a>   | Language  | Kenai     | Managing references, metadata, MODS, RDF   |
| Council               | <a href="http://council.openoffice.org/">http://council.openoffice.org/</a>               | Community | Kenai     | Council and steering committee - including the council wiki.   |
| Database Access       | <a href="http://dba.openoffice.org/">http://dba.openoffice.org/</a>                       | Core      | Kenai     | OOo Base Application   |
| Development           | <a href="http://development.openoffice.org/">http://development.openoffice.org/</a>       | Community | Kenai     | Developer Portal - Development   |
| Documentation         | <a href="http://documentation.openoffice.org/">http://documentation.openoffice.org/</a>   | Users     | Kenai     | User Guides, Documentation   |
| Download              | <a href="http://download.openoffice.org/">http://download.openoffice.org/</a>             | Infra     | Kenai     | Downloads, RC, Beta, and Developer Builds  |
| External              | <a href="http://external.openoffice.org/">http://external.openoffice.org/</a>             | Extension | Kenai     | "hosts source code related to OpenOffice.org that is exempted from the general copyright and/or licensing rules. Sources may fall under licenses different from those used by the OpenOffice.org core codebase. These sources are not covered by the Oracle Contributor Agreement and thus copyright is not shared with Oracle." |
| Graphics Applications | <a href="http://graphics.openoffice.org/">http://graphics.openoffice.org/</a>             | Core      | Kenai     | Graphic Support, Draw, Impress, Chart 2, Drawing and Presentation Layers   |
| Graphic System Layer  | <a href="http://gsl.openoffice.org/">http://gsl.openoffice.org/</a>                       | Core      | Kenai     | Device dependent graphics, printing support.   |
| Infrastructure        | <a href="http://infrastructure.openoffice.org/">http://infrastructure.openoffice.org/</a> | Infra     | Kenai     | OOo Website  |
| Installation          | <a href="http://installation.openoffice.org/">http://installation.openoffice.org/</a>     | Infra     | Kenai     | Installers and Packaging   |

| Marketing             | <a href="http://marketing.openoffice.org/">http://marketing.openoffice.org/</a>           | Community | Kenai     | Marketing portal   |
| Porting               | <a href="http://porting.openoffice.org/">http://porting.openoffice.org/</a>               | Infra     | Kenai     | Adding support for new Operating Systems   |
| QA                    | <a href="http://qa.openoffice.org/">http://qa.openoffice.org/</a>                         | Infra     | Kenai     | Issue tracker frontend   |

|                          |   |           |       |   |
|--------------------------|---|-----------|-------|---|
| Spreadsheet              | <a href="http://sc.openoffice.org/">http://sc.openoffice.org/</a>   | Core      | Kenai | Calc application  |
| Tools                    | <a href="http://tools.openoffice.org/">http://tools.openoffice.org/</a>   | Infra     | Kenai | Build tools and repository  |
| Universal Content Broker | <a href="http://ucb.openoffice.org/">http://ucb.openoffice.org/</a>   | Extension | Kenai | Configuration settings and specifications                             |
| UNO Development Kit      | <a href="http://udk.openoffice.org/">http://udk.openoffice.org/</a>   | Core      | Kenai | Scripting framework and bridges to other language like PyUNO          |
| User Experience          | <a href="http://ux.openoffice.org/">http://ux.openoffice.org/</a>   | Core      | Kenai | To develop and improve usability and look & feel of OOo               |
| User Interface           | <a href="http://ui.openoffice.org/">http://ui.openoffice.org/</a>   | Core      | Kenai | Improved on create better user experience and interface and usability |
| Website                  | <del><a href="http://website.openoffice.org/">http://website.openoffice.org/</a></del><br><a href="http://www.openoffice.org/">http://www.openoffice.org/</a> | Community | Kenai | The entry point of the OOo websites                                   |
| Writer                   | <a href="http://sw.openoffice.org/">http://sw.openoffice.org/</a>   | Core      | Kenai | Web and Writer application as well as printing                        |
| XML File Formats         | <a href="http://xml.openoffice.org/">http://xml.openoffice.org/</a>   | Core      | Kenai | File format, transformations, export to other fileformats             |

## Incubator Projects ("Topics")

| OO Project Name                            | Project Website Name  | Category  | Hosted at | Notes  |
|--|---|-----------|-----------|--|
| BizDev                                     | <a href="http://bizdev.openoffice.org/">http://bizdev.openoffice.org/</a>                           | Community | Kenai     | Relationship with companies and OOo service providers                    |
| Certification                              | <a href="http://certification.openoffice.org/">http://certification.openoffice.org/</a>             | Community | Kenai     | Competence certification for OOo   |
| Groupware                                  | <a href="http://groupware.openoffice.org/">http://groupware.openoffice.org/</a>                     | Core      | Kenai     | Project to try to extent OOo towards a groupware solution                |
| Distribution, incl. CDROM, mirrors and P2P | <a href="http://distribution.openoffice.org/">http://distribution.openoffice.org/</a>               | Infra     | Kenai     | DVD, CDROM, BitTorrent distribution of OOo                               |
| Education                                  | <a href="http://education.openoffice.org/">http://education.openoffice.org/</a>                     | Users     | Kenai     | Development education and host of the OOo4Kids project                   |
| Extensions                                 | <a href="http://extensions.services.openoffice.org/">http://extensions.services.openoffice.org/</a> | Extension | OSUOSL    | Development of extensions and administration of the Extension Repository |
| Modularization                             | <a href="http://modularization.openoffice.org/">http://modularization.openoffice.org/</a>           |           |           |  |
| ODF@WWW                                    | <a href="http://odf-at-www.openoffice.org/">http://odf-at-www.openoffice.org/</a>                   | Core      | Kenai     | Project to make it easy for ODF to integrate to the web                  |
| OOPM                                       | <a href="http://oopm.openoffice.org/">http://oopm.openoffice.org/</a>                               | Core      | Kenai     | Development of OOo Project Management module                             |
| Performance                                | <a href="http://performance.openoffice.org/">http://performance.openoffice.org/</a>                 | Core      | Kenai     | Project focused on OOo performance optimization                          |
| Security                                   | <a href="http://security.openoffice.org/">http://security.openoffice.org/</a>                       | Core      | Kenai     | Project to improve the security in every corner of OOo                   |
| Stats                                      | <a href="http://stats.openoffice.org/">http://stats.openoffice.org/</a>                             | Infra     | Kenai     | Track OOo site traffic, commits, list traffics, and other numbers        |
| Uniform Office Format                      | <a href="http://uof.openoffice.org/">http://uof.openoffice.org/</a>                                 | Core      | Kenai     | Interoperability with the UOF file format                                |
| VBA Interoperability                       | <a href="http://vba.openoffice.org/">http://vba.openoffice.org/</a>                                 | Core      | Kenai     | Interoperability with VBA macros   |
| WP   | <a href="http://wp.openoffice.org/">http://wp.openoffice.org/</a>                                   | Core      | Kenai     | WordPerfect filter   |

## Subdomains accessed directly from the main page.

| Subdomain    | Website   | Category  | Hosted at | Notes   |
|--------------|---|-----------|-----------|---|
| Why          | <a href="http://why.openoffice.org/">http://why.openoffice.org/</a>                                 | Community | Kenai     | Accessed from the main openoffice.org page this is marketing presentation site with a distinct look and feel. |
| Download     | <a href="http://download.openoffice.org/">http://download.openoffice.org/</a>                       | Infra     | Kenai     | Download all kind of releases   |
| Support      | <a href="http://support.openoffice.org/">http://support.openoffice.org/</a>                         | Users     | Kenai     | Part of the Wiki site a set of list to various levels of support and documentation.                           |
| Extensions   | <a href="http://extensions.services.openoffice.org/">http://extensions.services.openoffice.org/</a> | Extension | OSUOSL    | Access and download extensions.   |
| Contributing | <a href="http://contributing.openoffice.org/">http://contributing.openoffice.org/</a>               | Community | Kenai     | Contribution Portal   |

## Native-Lang Projects

The following language codes appear to have websites (complete with domain registration one would assume). More complete information about these sites can be found at <http://projects.openoffice.org/native-lang.html>.

All of the site names are of the form: xx.openoffice.org. These are NOT housed on the main openoffice.org server.
