

KIP-366: Make FunctionConversions deprecated

- [Status](#)
- [Motivation](#)
- [Public Interfaces](#)
- [Proposed Changes](#)
- [Compatibility, Deprecation, and Migration Plan](#)
- [Rejected Alternatives](#)

Status

Current state: *Adopted (2.1.0)*

Discussion thread: [here](#)

Github PR: [here](#)

Jira: [KAFKA-7399](#) - Getting issue details... STATUS

Please keep the discussion on the mailing list rather than commenting on the wiki (wiki discussions get unwieldy fast).

Motivation

As pointed out in this [comment #5539](#) "This class was already defaulted to public visibility, and we can't retract it now, without a KIP.", the object `FunctionConversions` is only of internal use and therefore should be private to the lib only so that we can do changes without going through KIP like this one.

Public Interfaces

```
org.apache.kafka.streams.scala.FunctionConversions
```

Proposed Changes

Make this object deprecated and rely on a private version of it.

Compatibility, Deprecation, and Migration Plan

Go through a deprecation.

Rejected Alternatives

NA
