Sites and products using Click

Below are listed (*in alphabetical order*) some of the sites and products that use Click. We would love to hear about your site or product, so please feel free to add it to this page. Alternatively you can let us know on one of our [mailing lists](#), or directly to "**sabob1** at **gmail dot com**".

1. Avoka FormCenter

FormCenter is a powerful customer self service electronic forms delivery platform designed to fully leverage Adobe LiveCycle. It is a web based customer facing solution that manages the complete life cycle of electronic forms and their associated services and data, and delivery.

FormCenter provides the foundation of the whole of Australian Federal [Government SmartForms](#) solution.

2. Balloonshop - <http://www.balloonshop.gr>

Balloonshop is an online shop for purchasing balloon made decorations and services for parties, weddings, birthdays, etc. It covers the needs of both the shop owners and their customers.

3. BetterProgrammer - <http://www.betterprogrammer.com/>

BetterProgrammer.com is a site testing hands-on Java skills. The test is very different from traditional multiple-choice question tests. The site asks to solve several short programming tasks and then compiles and evaluates them online.

Good programmers will enjoy taking this test; it really is a programming test, not a language test.

better programmer

Task: 2 / 4 Recommended time: 12 Min. Max. time: 30 Min. Task time: 31 Sec.

Complexity: Level 3

- Copy this task to `BetterProgrammerTask.java`. Use APM package.
- Implement the missing parts and copy the whole file back.

If necessary, you may use auxiliary methods and attributes to the class. PLEASE DO NOT change the given code (including method signatures, class members etc.). But you can use whatever. Please follow OOP principles like D.R.I.P. (Don't Repeat Yourself) package statement will be ignored. You will get the file back (don't try to solve the task outside of this IDE) if you need it.

submit

```

public class BetterProgrammerTask {
    public static int solveProgrammerTask(int i) {
        // Fill in the missing parts to complete the code.
        // The word in the parameter being was be processed from each value by the number
        // of characters equals to (Character.isLetter(i) ? 1 : 0);
    }
}

```

Take a Break after this task

Solve Task

4. BeyondGrade - <http://www.beyondgrade.net>

BeyondGrade is a free online grade book designed for schools, teachers, students and parents to work together to achieve excellence in education.
