

Status Report March 2016

March Board Report (SUBMITTED 04-MAR-2016) Apache Sling is an OSGI-based scriptable web framework that uses a Java Content Repository, such as Apache Jackrabbit, to store and manage content.

There are no issues which require board attention at the moment.

Community

Good activity level overall, contributions from different people continue.

No new committers (last committers change was in March 2015 with three new committers elected), no new PMC member (last PMC change was in October 2015 with one new PMC members elected).
