

Geronimo 2.2 Release Roadmap

{scrollbar}

Major Features for Geronimo 2.2

Planned Features

- Java SE 6 support (GERONIMO-4089) - Jarek
 - Support server runtime on Java SE 5 and 6
- JEE5 certification with Java SE 6
- Upgrade key dependencies to latest versions
 - Upgrade to Dojo 1.3.1
 - Upgrade to Tomcat 6.0.20 (GERONIMO-4245) - Donald
 - Upgrade to OpenJPA 1.2.0 (GERONIMO-4278) - Donald
 - Upgrade to Derby 10.4.2.0 (GERONIMO-4295) - Donald
 - Upgrade to Jetty 6.1.14 (GERONIMO-4437) - Donald (replaced with jetty7 for all practical purposes)
 - JAX-WS 2.1 / JAX-B 2.1
 - Axis2 1.5 (GERONIMO-4327) - Jarek
 - CXF 2.1.3 (GERONIMO-4263) - Jarek
 - Use CXF tooling instead of Sun RI to generate WSDL artifacts (GERONIMO-4351) - Jarek
 - Upgrade to ActiveMQ 5.2.0, involving replacing much of the jms portion of the admin console (GERONIMO-4298, GERONIMO-4337)
 - Upgrade to JACC 1.1-MR5 spec (GERONIMO-4357) - David Jencks
 - Upgrade to latest Geronimo Javamail Spec and Impl releases - Rick McGuire
 - Update OpenEJB version from 3.1.1 to 3.1.2 (GERONIMO-4684)
 - Use CXF tooling to generate WSDL and other artifacts for JAX-WS services
 - Integrate jetty7 (servlet 3.0) with jaspri support (GERONIMO-4249) - David Jencks
- Usability improvements
 - JMS Portlet improvements
 - EJB Portlet improvements (GERONIMO-3811) - Manu
 - Console accessibility improvements (GERONIMO-4080, GERONIMO-4081) - Forrest/Donald
 - Custom server assembly UI improvements (GERONIMO-4265, GERONIMO-4282) - Lin
 - Use GShell for all main cmdline scripts, but not for client and simple start/stop scenarios? (GERONIMO-4105, GERONIMO-4118, GShell-117)
 - Run the activemq web console on geronimo (GERONIMO-4560)
 - Security realm based Group-Role mapping (GERONIMO-4523)
 - install-library goal for geronimo-maven-plugin (GERONIMO-4408)
 - Provide a mechanism to hide specific classes of a configuration to all its children (GERONIMO-4403)
 - Extension of configuration dependencies and gbeans via Groovy scripts (GERONIMO-4401)
 - New Service instance via plugins (GERONIMO-4382)
 - Server farm management via plugins (GERONIMO-4284) - David Jencks
- Reduce server footprint and startup time
 - Remove usage of Dojo 0.4.3 (Not gonna happen for 2.2)
 - Switch to Dojo 1.3.1 mini release (GERONIMO-4325) - JayDM – we are no longer packaging our own copy of dojo
- Server runtime
 - Plugin profiles - Lin
 - Server farm/cluster management with dynamic members and improved deployment for offline/new member scenarios (GERONIMO-4284) - David J.
 - TranQL connector for MS SQL 2000/2005 (GERONIMO-4279)
 - TranQL connector for Oracle RAC (GERONIMO-4297)
 - TranQL connector for Informix (GERONIMO-4365)
 - GBean Annotations (GERONIMO-4399) - Gianni Damour
 - Mechanism to hide specific classes of a configuration to all its children (GERONIMO-4403) - Gianni Damour
 - Extension of configuration dependencies and gbeans via Groovy scripts (GERONIMO-4401) - Gianni Damour
- Tooling
 - Enhance geronimo-maven-plugin to start/stop multiple servers at once (GERONIMO-4283) - David J.
 - Create new Server Instances via plugins (GERONIMO-4382) - David J.
 - GEP support for creating Custom Server Assemblies (GERONIMODEVTOOLS-524) - BJ Reed
 - Enhance geronimo-maven-plugin with install-library goal (GERONIMO-4408) - Michal Borowiecki
 - GEP support for building plugins

Potential Items

- - Connector 1.6 implementation (GERONIMO-4360), -4358 - David Jencks (this is moderately complete but completely untested)
 - Publish Debug View portlets as optional plugins (remove from assemblies)
 - Publish Monitoring plugins as optional (remove from assemblies)
 - Publish Plan Creator as optional plugins (remove from assemblies)
- Possible reorg of the Admin Console (if we enable collapsible tree)

- Additional JMS Portlet improvements
- EJB Portlet improvements
- Use CDDL licensed spec xsds in a publicly available project for xmlbeans or jaxb object generation
- Convert to jaxb for builders
- scripting/code-by-convention environment - would be cool to see a Grails/JRuby on Rails environment integrated with Geronimo

Snapshots we need released before main release.

Geronimo stuff

- jacc spec
- jaxb 2.1 spec
- jaspri component
- tomcat/jasper fork
- xbean
- dojo 0.4.3 war
- connector 1.6 spec (probably not)
- txmanager trunk (probably not)
- servlet 3.0 spec (probably not)

Non-geronimo stuff

- openejb
- jetty (unless an RC works for us)
- activemq

Individual Release Plans and Status

See the [Apache Geronimo Release Status](#) section in this wiki space for more details.

Geronimo 2.2 documentation plan/status

See [Apache Geronimo v2.2 documentation development status](#) for more details.
