

# How to apply a patch to OFBiz

Applying patches using SVN? (maybe too techie). Assume end users have installed using the latest stable release zip file. How can they apply a single patch

I guess most people using Linux have no problem with that, so here is an answer for Windows users:

<https://stackoverflow.com/questions/517257/how-do-i-apply-a-diff-patch-on-windows>

You normally need to apply patches from root
