

Nightly Builds

Ignite.NET nightly builds are on MyGet feed:

- <https://www.myget.org/gallery/apache-ignite-nightly>

Make sure to enable "Include prerelease" option or use "-Pre" switch.

Feed URL to add in Visual Studio: <https://www.myget.org/F/apache-ignite-nightly>

Package Manager Console command:

```
Install-Package Apache.Ignite -Pre -Source https://www.myget.org/F/apache-ignite-nightly
```

Nightly builds are not official Apache Ignite releases, have not been tested, and come with no guarantees.
