

# Since and Deprecated User Macros

We have two Confluence user macros to mark deprecated or newly added features in the documentation wiki: {since} and {deprecated}. See also the [list of user macros](#).

## The since macro

Examples:

**Added in 5.2**

**Added in 5.2** — Some short message

**Added in 5.2**  
This is a longer message about the new feature. It can contain *wiki markup and formatting*.

**Added in 5.2** — Some short message  
This is a longer message about the new feature. It can contain *wiki markup and formatting*.

## The deprecated macro

Examples:

**Deprecated since 5.2**

**Deprecated since 5.2** — Some short message

**Deprecated since 5.2**  
This is a longer message about the new feature. It can contain *wiki markup and formatting*.

**Deprecated since 5.2** — Some short message  
This is a longer message about the new feature. It can contain *wiki markup and formatting*.
