

if

Please make sure you have read the [Tag Syntax](#) document and understand how tag attribute syntax works.

Description

Perform basic condition flow. 'If' tag could be used by itself or can be followed by zero or more 'Else if' Tags followed by zero or one 'Else' Tag.

Parameters

{snippet:id=tagattributes|javadoc=false|url=struts2-tags/if.html}

Examples

{snippet:id=example|lang=xml|javadoc=true|url=struts2/core/src/main/java/org/apache/struts2/components/If.java}
