

# Guides and Tutorials from around the web

An excellent introductory series from Simone Chiaretta

1. [How to get started with Lucene.Net](#)
2. [The Main Concepts](#)
3. [Your First Application](#)
4. [Dissecting Storage Documents and Fields](#)
5. [Lucene - or how I stopped worrying and learned to love unstructured data](#)
6. [How Subtext Lucene.Net index is structured](#)

Various Lucene.Net and Azure tutorials

- [Azure Library for Lucene.Net](#)
- [Using Lucene.Net with Microsoft Azure](#)
- [MSDN article on using lucene.net with Azure](#)

Extracting text from documents

- [Desktop Search](#) - this provides a great section on how to use iFilters
- [Extracting text from documents in a database](#)

Other Lucene.Net tutorials and samples

- [Lucene.Net 2.9.2 Tutorial](#)
- [Faceted Search and Drill Down](#)

@LuceneDotNet Collection

These are all the articles found through sharing on twitter and other social media avenues.

- <http://www.aaron-powell.com/lucene-net-overview> - a high level overview and tutorial on building a Lucene.Net application.
