

# Apache Geronimo v2.0 update status

Topic	Owner	Status	Can be used as is	Need update	N /A
Administration					
Administrative tasks	Multiple	complete			
Administering applications	Jay D. McHugh	complete			
Installing and removing applications	Hernan Cunico	complete			
Starting and stopping application modules	Dan Becker	complete			
Administering the Apache Geronimo Server	Dan Becker	complete			
Adding new listeners for the Web containers	Dan Becker	complete			
Add new AJP listener	Dan Becker	complete			
Add new HTTP listener	Dan Becker	complete			
Add new HTTPS listener	Dan Becker	complete			
Configure JAX-WS engine	Dan Becker	complete			
Configure log level	Dan Becker	complete			
Derby Log Viewer	Dan Becker	complete			
Log Manager	Dan Becker	complete			
Server Log Viewer	Dan Becker	complete			
Web Access Log Viewer	Dan Becker	complete			
Configuring a remote Apache HTTP server	Dan Becker	complete			
Configure Apache HTTPd as a reverse proxy (mod_proxy)	Dan Becker	complete			
Configure Apache HTTPd with Jakarta Tomcat Connector (mod_jk)	Dan Becker	complete			
Configuring the JMS server	Dan Becker	complete			
Display JVM information	Dan Becker	complete			
Monitor Server status	Dan Becker	complete			
Performance monitoring	Dan Becker	complete			
Starting and stopping the server	Dan Becker	complete			
Configuring security	Dan Becker	complete			
Administering certificates	Dan Becker	complete			
Administering users and groups	Dan Becker	complete			
Administering security realms	Dan Becker	complete			
Certificate Properties File Realm	Dan Becker	complete			
Database (SQL) Realm	Dan Becker	complete			
LDAP Realm	Dan Becker	complete			
Certification Authority	Dan Becker	complete			
Configuring services	Dan Becker	complete			
Adding archives to the Geronimo repository	Dan Becker	complete			
Configuring database pools	Dan Becker	complete			
Configuring DB2 datasource	Dan Becker	complete			
Create new database pools	Dan Becker	complete			
Import database pools from JBoss 4	Dan Becker	complete		yes	

Import database pools from WebLogic 8.1	Dan Becker	complete		yes	
Removing database pools	Dan Becker	complete			
Configuring JMS	Dan Becker	complete			
ActiveMQ JMS broker deployment	Dan Becker	complete			
JMS Resources deployment with deploy tool	Dan Becker	complete			
Configuring Geronimo as a Windows Service	Dan Becker	complete			
Configuring Virtual Hosts in Geronimo-Jetty	Jay D. McHugh	complete			
Configuring Virtual Hosts in Geronimo-Tomcat	Jay D. McHugh	complete			
Create a database	Dan Becker	complete			
Geronimo Administration Console	Joseph Leong	complete			
Running Geronimo	Joseph Leong	complete			
Multiple Repositories	Joseph Leong	complete			
Running Geronimo as a non-root user	Joseph Leong	complete			
Running Multiple Instances of Geronimo	Joseph Leong	complete			
System Modules					
Tools and commands	Joseph Leong	complete			
client.jar	Joseph Leong	complete			
deploy	Joseph Leong	complete			
Deployer tool	Joseph Leong	complete			
geronimo	Joseph Leong	complete			
jpa.jar	Joseph Leong	complete			
shutdown	Joseph Leong	complete			
startup	Joseph Leong	complete			
Deployment Plans					
Installation	Herman	complete			
Migrating to Apache Geronimo	Jason W	complete			
J2G Migration Tool	Jason W	complete			
Building J2G from source	Jason W	complete			
Using J2G	Jason W	complete			
JBoss to Geronimo - EJB-BMP Migration	Erik	complete			
JBoss to Geronimo - EJB-CMP Migration	Erik				
JBoss to Geronimo - EJB-MDB Migration	Erik				
JBoss to Geronimo - EJB-Session Beans Migration	Erik	complete			
JBoss to Geronimo - Hibernate Migration	Erik	complete			
JBoss to Geronimo - JDBC Migration	Erik	complete			
JBoss to Geronimo - Security Migration	Erik				
JBoss to Geronimo - Servlets and JSPs Migration	Erik	complete			
JBoss to Geronimo - Web Services Migration	Erik				
openejb-jar.xml					
Quick start - Apache Geronimo for the impatient	Kevan Joseph Leong	complete			
README.txt					
RELEASE-NOTES-2.0.1.TXT	Herman				

RELEASE-NOTES-2.0-M1.TXT	Hernan					
RELEASE-NOTES-2.0-M2.TXT	Hernan					
RELEASE-NOTES-2.0-M3.TXT	Hernan					
RELEASE-NOTES-2.0-M4.TXT	Hernan					
RELEASE-NOTES-2.0-M5.TXT	Hernan					
RELEASE-NOTES-2.0-M6.TXT	Hernan					
What's new in Geronimo v2-M2						
RELEASE-NOTES-2.0.2.TXT	Hernan Kevan					
Sample applications	Joseph Leong					
Apache Harmony						
Creating a new sample	Joseph Leong					
DayTrader	Joseph Leong					
DB Pool Testing sample application	Joseph Leong					
Deploy and run J2EE Application Client	Dan Becker	complete				
EJB sample application	Dan Becker	complete				
How to get JNDI working in Geronimo 2.0	Dan Becker	complete				
Inbound JCA example	Dan Becker	complete				
Jar to Jar EJB references (no ear)	Dan Becker	complete				
JMS and MDB sample application	Dan Becker	complete				
JMS Resources deployment	Dan Becker	complete				
LDAP sample application	Dan Becker	complete				
Simple database access sample application						
Simple Web Service with JAX-WS						
SPECJAppServer2004						
Using Geronimo's default JavaMail session						
Using JNDI in Geronimo 2.0						
Using some of EJB 3.0 functionalities						
Very simple Entity EJB example						
Very simple Session EJB example						
Web application security sample	Dan Becker	complete				
Troubleshooting
