

## AOO 3.4.1 Respin for additional languages

We plan a respin on base of AOO 3.4.1 to support some further languages where we have received the missing pieces to make a release possible.

The scope of this respin is to provide new languages only, that means we plan to integrate the new translation in the AOO 3.4.1 branch, create a new source release package and provide for the convenience of our users some further new built binary packages for these new languages.

### Planned release schedule

Date	Description
January 4th, 2013	<b>Translation deadline</b> All new translation have to be available as attachments to new created issues for each language
January 11th, 2013	<b>Availability of 1. Developer Snapshot</b>
January 19th, 2013	<b>Availability of 2. Developer Snapshot</b>
January 24th, 2013	<b>GA</b>

## Proposed workflow

- request help for support of a new language via the l10n mailing list, po files will be made available immediately
- work on translations
- create a new issue (see below), attach the translated po files
- create a further issue for the integration of a related dictionary extension
- update Pootle with new translation files to reflect the status
- convert po files to sdf and integrate them on AOO 3.4.1 branch
- prepare developer snapshots
- review developer snapshots
- release

### Create new issue for translation files

- create [https://issues.apache.org/ooo/enter\\_bug.cgi?product=l10n](https://issues.apache.org/ooo/enter_bug.cgi?product=l10n)
- Product=l10n
- Component=UI
- Version=AOO 3.4.1
- Issue Type=Feature
- Subject= "<language> (<iso code>) translation for AOO 3.4.1", e.g. Danish (da) translation for AOO 3.4.1
- Assignee=jsc
- Attachment: new translated po files as zip or tar.gz

### Create new issue for dictionaries

- create [https://issues.apache.org/ooo/enter\\_bug.cgi?product=l10n](https://issues.apache.org/ooo/enter_bug.cgi?product=l10n)
- Product=l10n
- Component=localedata
- Version=AOO 3.4.1
- Issue Type=Feature
- Subject= "integrate <language> (<iso code>) dictionary for AOO 3.4.1", e.g. integrate Danish (da) dictionary for AOO 3.4.1
- Assignee=jsc
- Description: detailed information about the dictionary, name, download link etc.
