

dojo submit

[ajax common header](#)true

Description

{snippet:id=javadoc|javadoc=true|url=struts2/plugins/dojo/src/main/java/org/apache/struts2/dojo/components/Submit.java}

There's a bug in IE6/IE7 which makes impossible to use the target's attribute with a parent Div, because such Div's content's are overwritten with the tag's / *loadingText*. Resulting in an "undefined" message in the content's, instead of the result of the request.

One possible alternative is to set *showLoadingText*="false" (the default) and set the indicator attribute to an element showing the desired loading text or image (outside the div).

```
xml  <s:div id="parentDiv"> <s:form action="actionName"> <sx:submit
targets="parentDiv" showLoadingText="false" indicator="loadingImage"/> </s:form> </s:div>
```

Parameters

{snippet:id=tagattributes|javadoc=false|url=struts2-tags/ajax/submit.html}

Examples

{snippet:id=example1|lang=xml|javadoc=true|url=struts2/plugins/dojo/src/main/java/org/apache/struts2/dojo/components/Submit.java}

Render an image submit:

{snippet:id=example2|lang=xml|javadoc=true|url=struts2/plugins/dojo/src/main/java/org/apache/struts2/dojo/components/Submit.java}

Render a button submit:

{snippet:id=example3|lang=xml|javadoc=true|url=struts2/plugins/dojo/src/main/java/org/apache/struts2/dojo/components/Submit.java}

Update target content with html returned from an action:

{snippet:id=example4|lang=xml|javadoc=true|url=struts2/plugins/dojo/src/main/java/org/apache/struts2/dojo/components/Submit.java}

Submit form(inside the form):

{snippet:id=example5|lang=xml|javadoc=true|url=struts2/plugins/dojo/src/main/java/org/apache/struts2/dojo/components/Submit.java}

Submit form(outside the form):

{snippet:id=example6|lang=xml|javadoc=true|url=struts2/plugins/dojo/src/main/java/org/apache/struts2/dojo/components/Submit.java}

Using beforeNotifyTopics:

{snippet:id=example7|lang=xml|javadoc=true|url=struts2/plugins/dojo/src/main/java/org/apache/struts2/dojo/components/Submit.java}

Using afterNotifyTopics and highlight target:

{snippet:id=example8|lang=xml|javadoc=true|url=struts2/plugins/dojo/src/main/java/org/apache/struts2/dojo/components/Submit.java}

Using errorNotifyTopics and indicator:

{snippet:id=example9|lang=xml|javadoc=true|url=struts2/plugins/dojo/src/main/java/org/apache/struts2/dojo/components/Submit.java}
