

# DaoRelated

Since Struts does not deal with or dictate the data layer, (DAO, etc), you are free to choose whatever you like.

## iBatis

- <http://ibatis.apache.org/javadownloads.html> – iBatis website

Some iBatis tutorials, related to Struts:

- <http://www.learntechnology.net/struts-ibatis.do> – Using Struts with iBatis
- <http://www.learntechnology.net/struts-spring-ibatis.do> – Using Struts with iBatis and Spring
- <http://ibatis.apache.org/javadownloads.html> – Download and analyze JPetStore application, it is written with iBatis/Struts by iBatis developers
