 - [Maintenance with /solr/admin/](#)

Intro

Solr offers three webinterfaces to remotely access the Lucene index and other parts of the system.

Indexing with /solr/update/

- [SolrUpdate](#) - Client code in some undisclosed language

Searching with /solr/select/

- Query parameters:
 - [CoreQueryParameters](#)
 - [CommonQueryParameters](#)
- [SolrQuery](#) - Client code in some undisclosed language

Maintenance with /solr/admin/

See [SolrAdminGUI](#).
