**CommonsResources**

Resources for Apache Commons

**Articles**

Articles are listed on the ArticlesAndTutorials page.

---

**Books**

There are currently 7 known books on Apache Commons. In order of publication:

- *Pro Jakarta Commons* by Harshad Oak (2004-03), Apress.
- *Jakarta Commons* by Torsten Curdt, Stefan Edlich, Henrik Hörning, Reidar Hörning, Software & Support Verlag, in German
- *Apache Jakarta Commons: Reusable Java Components* by Will Iversen, Prentice Hall. The code for this book (and links to reviews) can be found at Will's site for the book.
- *Jakarta Commons Live* by Jonathan Lehr (coming soon), SourceBeat.
- *Jakarta Commons in Action* by Vikram Goyal, Manning.

---

**Third Party Resources**

- **Morph** - alpha framework based on ideas from BeanUtils (read comparison to Morph), CommonsConvert and CommonsChain. Also will support functionality in read comparison to Morph) [http://morph.sourceforge.net/alternatives/jexl.html].
- **Mailing list archive** - Nabble hosts a combined user/dev archive of the commons' lists. The archive has a clean UI for cross browsing and also a fast search. Users can search here before posting questions to the mailing lists.
