

Apache Geronimo Board Report - 2013-04 - April

Apache Geronimo Board Report

Apache Geronimo is an open source server runtime that integrates the best open source projects to create Java/OSGi server runtimes that meet the needs of enterprise developers and system administrators.

The community has generated multiple releases in the past 3 months. The community is preparing for a Geronimo 3.0.1 release.

Releases

genesis 2.1 (March), xbean 3.13 (March), aspectjrt and aspectjweaver 1.6.8_2 (March), commons-httpclient 3.1.2 (March), geronimo-jsp 2.2 (March), geronimo-el_2.2_spec 1.0.4 (March), geronimo-jaxws_2.2_spec 1.2 (April), yoko 1.4 (April)

JUGs and Conferences

Community

The Geronimo web site is being migrated to svnpubsub. Thanks to infra@ for their assistance.

New PMC Members

Mark Struberg was invited by the Geronimo PMC to join the Geronimo PMC.

New Committers

Romain Manni-Bucau was invited by the Geronimo PMC to join the project as a committer.

Security

Other Issues and News

The community remains active. However, there has been a drop off in committer activity. Several Geronimo users have been useful in identifying issues and helping to communicate the need for resolution of certain issues. Hopefully their contributions can continue.
