

# How can I fix the "Attribute 'short-circuit'" error message

The `short-circuit` attribute was introduced in the XWork Validator 1.0.2 release. If the framework complains that the "Attribute 'short-circuit' must be declared for element type 'field-validator'", update the configuration file's DTD reference.

```
<!DOCTYPE validators PUBLIC
"-//OpenSymphony Group//XWork Validator 1.0.2//EN"
"http://www.opensymphony.com/xwork/xwork-validator-1.0.2.dtd">
```
