Other Operating Systems

Preface

This section of the FAQ deals with running Tomcat on platforms not supported by the built-in startup/shutdown scripts. These include OS/2, z/OS, OpenVMS (Alpha/I64), and others.

Questions

Where are the scripts for my operating system?

- OS/2:
  - NetBeans.org
  - EComStation
- z/OS:
  - JZOS
- GNU/Linux:
  - From pander@users.sourceforge.net
- OpenVMS-Alpha:
  - Hewlett Packard (meg.garrison@hp.com)
- OpenVMS-I64:
  - See the HowTo
