Help Wanted

We want to clean up the old Wiki content, in all 230 sub pages below the Old Moin wiki page.

If you are a PMC member you can edit directly. If you are not a PMC member but want to help, please email dev@ mailing list and we'll give you edit karma.

What you can do

- Delete unnecessary pages such as "personal" profile pages that were used in MoinMoin. If you are unsure, move it as child of Pages to delete first
- Promote up-to-date high-quality pages to sub pages of this page and link to them
- Find other important but out-of-date pages, make them up to date and promote them to sub pages of this page
- Identify content that should be moved to a new asciidoc guide inside the Git source tree, and move those underneath the Asciidoc guide candidates page
