

JakartaPMCTopLevelProjectApplication

Several former Jakarta subprojects have applied to "top-level" status as an [Apache Top Level Project](#). This page summarizes the process for any other subprojects interested in following that path.

- [TODO](#) - Why be TLP? (Your rights and responsibilities)
- [JakartaPMCRequestTLPBenchmark](#) - Is your project a candidate TLP?
- [TODO](#) - Advice from those who went before.
- [JakartaPMCApPLYTLPPROCESS](#) - What's the application process?
- [JakartaPMCDraftTLPResolution](#) - Draft TLP resolution
- [JakartaPMCCreateTLPDateS](#) - When a TLP can be created
