

# Other Operating Systems

## Preface

This section of the FAQ deals with running Tomcat on platforms not supported by the built-in startup/shutdown scripts. These include OS/2, z/OS, OpenVMS (Alpha/I64), and others.

## Questions

Where are the scripts for my operating system?

- OS/2:
  - [NetBeans.org](#)
  - [EComStation](#)
- z/OS:
  - [JZOS](#)
- GNU/Linux:
  - [From pander@users.sourceforge.net](mailto:From pander@users.sourceforge.net)
- OpenVMS-Alpha:
  - [Hewlett Packard \(meg.garrison@hp.com\)](mailto:Hewlett Packard (meg.garrison@hp.com))
- OpenVMS-I64:
  - [See the HowTo](#)
