

UsefulLinks

Some useful links people have created to describe their Tomcat configuration experiences. Some of these links may be highly inaccurate or out of date. (Hopefully that's not the case)

- [Tomcat Connectors/JK](#)

 - [Configuring for Windows](#)
 - [Configuring for UNIX and Linux](#)
- [Running Tomcat](#)
- [TroubleShooting](#)

Tomcat Connectors/JK

- [Tomcat and IIS 6 How-To](#) – The link is dead, but much of the information in it is based on [this thread](#) on tomcat-users.
- [The Apache + SSL on Win32 HOWTO](#)
- [Configuring Tomcat with IIS Web Server](#)
- [Apache 2.x + Tomcat 4.x + Load Balancing \(or Private JVMs\)](#)
- [Configuring apache 2 + tomcat 5 + mysql + jdbc access on linux and windows](#)
- [BonCode AJP Connector for Apache Tomcat](#). Has examples and videos on how to configure IIS6 and IIS7 with Tomcat 6 and 7
- [Tomcat and IIS 7 configuration](#)

Building and Configuring Tomcat

Configuring for Windows

- [Tomcat5 Multi-Instances on Win32](#) (in German)
Got time for a translation? Contact [the web page author](#)
- [Tomcat Service Manager](#) (software) - by David Boyer
This software been **discontinued** in favor of the [Java Service Manager](#)
- [Tomcat Service Manager \(tcsn\)](#) (software) - by Dave Oxley

Configuring for UNIX and Linux

- [Installing Web Services with Linux / Apache / Tomcat / Mod_jk / Struts / Postgre{{`SQL / JDBC / Open`}}SSL](#)
- [How to run Tomcat on Port 80](#)
- [Integrating Tomcat and Apache on Red Hat 9.0](#)
- [Java and Jakarta Tomcat on Free`BSD](#)
- [Tomcat / Clustered JDBC](#)
- [Configuring and Using Apache Tomcat](#)

Running Tomcat

- For general information, see the `RUNNING.txt` file in the Tomcat distribution.
- [TomcatOnMacOS](#): Running Tomcat on MacOS X
- [Installing Tomcat on MacOS X](#)
- [Running Tomcat in Eclipse for development with Tapestry](#)

TroubleShooting

- How to deal with [OutOfMemory](#) Errors
