

WsmFeatureWishlist

- Support for Axis2
- Generation of JAX-RPC source artifacts. This would enable Beehive WSM to produce the source artifacts to execute an annotated web service on implementations of the JSR-101/9 specs.
- Support additional web service runtimes (Geronimo, [WebLogic](#), etc)
- Support drop-in deployment of annotated web services on the Axis runtime.
- XMLBeans support in WSM: [XmnBeansInWsm](#)
- Support for runtime-specific annotations to facilitate custom type mapping, reliable messaging, etc.
