

JakartaReport-August2004

August 2004

Status

The PMC bylaws have been updated to match the current situation. Most notably, we removed the 7-member limitation and monthly meetings, making the Jakarta PMC less of a board and more of a group of active committers, which is how things are anyway.

Our board report is due on September 22nd, for the last two months, so an update for each subproject will be needed on the wiki.

Releases

- 28 August 2004 - Tomcat 5.0.28 Released
- 26 August 2004 - [HiveMind](#) 1.0-rc-1 Released
- 25 August 2004 - Commons Validator 1.1.3 Released
