## **HashBuster**

## Hash Buster strings

Not seen very frequently nowadays, but these were a staple of spams during 2002-2003 or so.

they'd look like this:

Blah blah spam text blah http://www.example.com/link/blah blah

oaynxwhgarpsottqxiloxlrwxp

the "oaynxwhgarpsottqxiloxlrwxp" block of gibberish at the end is the hash buster.
