Possible Logos

Attached please find some potential logos. There are two general approaches: one sort of implies a unifying approach around a central "Lucene" theme, and the other is a standalone sort. And now, since LCF has become ACF, and ACF has become ManifoldCF, we need a whole new set.

"Lucene" themed logos

Classic with pictogram:

Standalone logos

These would be corresponding Lucene/LCF logos:

Here's another central-themed LCF logo, based around a bridge:

Another modest option:

New Apache-themed logos

(There are two other .svg files attached, but I don't have .png's for them yet.)

New ManifoldCF logo

Same logo with the TM, as required by Apache

The C and F make up a socket. The Apache feather make up the cord 🙂
