

# StrutsCatalog

## The Struts Catalog

Toward an overview of Struts Design Patterns and Practices.

NOTE: Since this is a **catalog**, some practices may be mutually exclusive. An application is **not** expected to implement every practice in this catalog. A very few of these entries are considered "best practices", the balance being simply "practices".

*[Please keep entries alphabetical in each section.]*

## Common Practices

- [StrutsCatalogErrorTypes](#)
- [StrutsCatalogHtmlRewrite](#)
- [StrutsCatalogSegmentApplications](#)
- [StrutsDesignPatterns](#)
- [StrutsMultipleActionForms](#) – Discussion on how to support multiple [ActionForms](#) for a single action mapping
- [NewWindowFromAction](#) – How to display the response in a different window (or How to change form target in action?)
- [StrutsPleaseWait](#)
- [ScriptsFromJava](#)
- [StrutsRememberMeCookie](#)
