SwissHadoopUserGroup

(Please note: with effect from 1st of June, 2012, the name of the group changes to "Swiss Big Data User Group". Hadoop remains a strong focus, though.)

The second meeting of the Swiss Big Data User Group will be held on July 16 at ETH Zürich. The topic of this meeting is: "NoSQL Storage: War Stories and Best Practices".

Program:

*Large Scale Log Analysis with HBase and Solr at Amadeus (Martin Alig, ETHZ)
*Big Graph Data Processing (Prof. Abraham Bernstein, UZH)
*Analyzing Logs/Configs of 200'000 Systems with Hadoop (Christoph Schnidrig, NetApp)
