

BoardReport-November2009

November 2009 Board Report

Status

Velocity still continues it quiet, steady flow. Activity picked up a little in October with some messages on the dev list. The user lists continues to be very self-helping with questions getting answered by members of the user and dev communities.

Velocity changed its chair from Will Glass-Husain to Henning Schmiedehausen.

The Velocity project currently has no board-level issues at this time.

There were new committers or PMC members voted in since the last board meeting.

No beta or final releases were made since the last board report.
