

Board Report - April 2020

Description:

Apache Streams unifies a diverse world of digital profiles and online activities into common formats and vocabularies, and makes these datasets accessible across a variety of databases, devices, and platforms for streaming, browsing, search, sharing, and analytics use-cases.

Issues:

There are no issues requiring board attention at this time.

Membership Data:

Apache Streams was founded 2017-07-18 (3 years ago)
There are currently 9 committers and 9 PMC members in this project.
The Committer-to-PMC ratio is 1:1.

Community changes, past quarter:

- One new PMC member - invitation pending to Brian Hodge as of 2020-04-07 (expected to accept)
- One new committer - invitation pending to Brian Hodge as of 2020-04-07 (expected to accept)

Project Activity:

- Apache Streams 0.6.1 was released in March 2020.

Community Health:

- Adding committers and growing the PMC will remain a focus.
- We need to identify and execute strategies to reach out to likely interested users and developers.
- We need to conduct more regular roadmap planning, create and deliver based on a release schedule.
