

Compatibility

Tested Compatibility

JSF Core

- MyFaces Core 1.1.x
- MyFaces Core 1.2.x
- MyFaces Core 2.0.x
- Sun RI (Mojarra) 1.2.x
- Sun RI (Mojarra) 2.0.x

Component Libraries

- Core Components
 - Apache MyFaces Trinidad (requires the [Trinidad component support module](#))
 - Apache MyFaces Tomahawk
 - Apache MyFaces Tobago (requires the [generic component support module](#))
 - PrimeFaces (see [PrimeFaces@os890](#))
 - ICEfaces (requires some changes - see [ICEfaces@os890](#))
 - ICEfaces 2 (details see [ICEfaces2@os890](#))
 - RichFaces (requires the generic component support module - see [RichFaces@os890](#))
 - OpenFaces and QuipuKit
- + (There are just some components which aren't compatible out-of-the-box. These components and joining client-side validation based on constraints require a component-support module. If you are interested in such a support please [contact us](#).)

Integration of other Validation Frameworks

- Bean-Validation ([JSR 303](#))
 - [Apache Bean Validation](#)
 - [Hibernate Validator v4](#)

Other Frameworks

- MyFaces CODI
- Seam
- Ajax4jsf (requires the generic component support module)
- Spring Security

View technologies

- JavaServer Pages (JSP)
- Facelets
