## About us

[Apache Tapestry™](#) is an open-source component-oriented framework for creating dynamic, robust, highly scalable web applications in Java.

Tapestry complements and builds upon the standard Java Servlet API, and so it works in any servlet container or application server.

[Apache Tapestry™](#), [Apache™](#) and the [Apache feather logo™](#) are trademarks of The Apache Software Foundation. All other marks mentioned may be trademarks or registered trademarks of their respective owners.
