

ApacheCon 2010 NA Meetup

ApacheCon 2010 NA Felix/OSGi Meetup

This meetup is organized by the Apache Felix community, but we'll expand it to pretty much any project or topic that is related to OSGi. A bit more background on [what a meetup actually is](#), can be found on [the Apache wiki](#).

Agenda

For the agenda we're still looking for talks. We try to keep them short (about 15 minutes) and we're open to suggestions here. If you're interested in presenting a topic, let us know here!
