Release a MyFaces Project

All MyFaces projects are now released using Nexus. Just follow the guide on:

- <http://www.apache.org/dev/publishing-maven-artifacts.html>

For each release, a daily guide is keep on the wiki, just for historical purposes and to keep track of some special steps. For example take a look at:

- <http://wiki.apache.org/myfaces/CoreRelease211>
- <http://wiki.apache.org/myfaces/TomahawkRelease1111>
- <http://wiki.apache.org/myfaces/MyfacesTestRelease103>
- <http://wiki.apache.org/myfaces/MyfacesTestRelease103>
- <http://wiki.apache.org/myfaces/BuilderPluginRelease109>

Old release guides:

- <http://wiki.apache.org/myfaces/ReleaseHowTo>
- http://wiki.apache.org/myfaces/Release_Procedure
