

Apache Camel 2.9.1 Released

The Camel PMC made available a new patch release: Apache Camel 2.9.1.
This release includes 109 bug fixes and comes about eight weeks after the release of camel-2.9.0.

The artifacts are now published and are ready for you to [download](#) either from the Apache mirrors or from the Central Maven repository.
For more details please take a look at the [release notes](#).

Many thanks to the Camel community for making this release possible.
