

# ApacheDS v1.0 Advanced User's Guide

## ApacheDS v1.0 Advanced User's Guide

1. Architecture
  - a. [Architectural Overview](#)
  - b. [Interceptors](#)
  - c. [The Administrative Model](#)
2. Authentication & Authorization
  - a. [Writing a custom authenticator](#)
  - b. [Authorization](#)
3. Attributes, Entries & Schemas
  - a. [Custom Schema](#)
  - b. [Collective Attributes](#)
4. Embedding ApacheDS
  - a. Embedding ApacheDS into an application
  - b. [Using ApacheDS for unit tests](#)
  - c. [Embedding ApacheDS as a Web Application](#)
5. Protocol Providers
  - a. Protocol Providers for ApacheDS
  - b. [Common Parameters for Configuration](#)
  - c. [Changes from 1.5 to 1.6](#)
  - d. [Kerberos Protocol Provider](#)
    - i. [Kerberos Protocol Configuration](#)
    - ii. [Kerberos and Unlimited Strength Policy](#)
  - e. Change Password Protocol
    - i. [Change Password Configuration](#)
  - f. [Domain Name System \(DNS\)](#)
    - i. [DNS Configuration](#)
  - g. [Network Time Protocol \(NTP\)](#)
    - i. [NTP Protocol Configuration](#)
  - h. [Dynamic Host Configuration Protocol \(DHCP\)](#)
6. Extending the server
  - a. [Implementing an alternative Backend](#) - Writing a custom partition
  - b. Implementing an Interceptor
7. Partitioning & Replication(1.5)
  - a. Referrals
  - b. Replication system
8. Triggers & Stored Procedures (1.5)
  - a. [Stored Procedures](#)
  - b. Triggers
9. Performance Tuning
  - a. [Performance Tuning](#)
10. Community
  - a. [Reporting Bugs](#)
  - b. [Building](#)
  - c. Contributing
